I'm a curious autonomous developper who just loves building beautiful intuitive things. I also love to bring some aesthetics to the code itself!

Professional Experience / Projects / Realisation

Prid*Emotion* – Present
Development of dedicated chat and video-chat application to connect psychologists and patients. Techs: JavaScript, Meteor, NodeJS, MongoDB, Ubuntu.

Optimization of the client's existing WordPress site and creation of a subscription flow with WooCommerce.

BeCode – 2017 - 2018
Development of a 3D modelling web application used to build furniture and/or spaces using a wood module. Techs: JavaScript, Angular, Ionic.
